Principally Speaking..

Can you believe it! This is the final newsletter of the year and the last for RHS. This year has moved so quickly and my time at Rogers has been truly a personal and professional blessing. Being granted the privilege to work with such great staff, students, and community has been rewarding and humbling. Each day I am reminded why education and the profession I chose is so special due to the community of WPS. Many have asked me, "How can you run two High Schools?", and I remind them every time, it is due to the outstanding people I have the privilege to work with and serve. All of you have been so patient and understanding as I learned the differences and similarities of the two High Schools. You have been positive in times of struggle and you have stepped up to support the entire community when difficult issues like consolidation became an area of focus and now the reality. The future, Wyoming High School, Home of The Wolves, will only be as strong as the efforts of the community, staff, and students. With that being said I am confident based on the evidence of the effort to date, we will be stronger and more focused on the education of our youth and the entire community. The change at first will have a feel of discomfort and great celebration at times, the unification of the two communities will be a work in progress, and the results will fill the air with new opportunities and higher expectations. I expect that we will never lose our respect for the past, we will maintain urgency for today, and we will set and achieve high expectations for everything we do in the future. The students of the future, as the students of the past, and most importantly, to students of today, we will continue to be a powerful team and great citizens. It is a great day to be a HAWK!
Sincerely,
Brad Hawkins
Principal
